### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert M. Bain on December 16, 2209.

The application has been amended as follows:

The claims have been amended as follows:

In the claims document dated 8/31/2009,

**Cancel:** claims 6-7.

Regarding claim 1, after the first limitation "receiving at the centralized location....access a resource controlled by the second entity;"

Add: "responsive to the received authorization request, creating a conditional scope expression identifying the resource by a resource name and by at least one property name-property value pair associated with the resource to conditionally define access to the resource, said property name-property value pair determining a list of conditions for access to the resource controlled by the second entity;

encrypting the created conditional scope expression;"

**Replace:** the limitation "a" by "the" after the limitation "responsive to the received authorization request, issuing the authorization data from the centralized location to the first entity, wherein the first entity provides the issued authorization data to the second entity to conditionally access the resource controlled by the second entity, said authorization data including"

**Delete:** the limitation "~~by a resource name and by at least one property name-property value pair associated with the resource to conditionally define access to the resource, said property name-property value pair determining a list of conditions for access to the resource controlled by the second entity~~" between the limitation "conditional scope expression identifying the resource" and ", said authorization data further including validation information;"

Regarding claim 24,

**Replace:** the limitation "~~“, said authorization data including a conditional scope expression”~~ **by** “, said authorization data including an encrypted conditional scope expression created in response to the received authorization request, said conditional scope expression”

For claim 28, after the limitation “a memory are accessible from the centralized location..., said authorization data including a”,

**Replace:** the limitation "~~“, said authorization data including a conditional scope expression”~~ **by** “, said authorization data including an encrypted conditional scope expression created in response to the received authorization request, said conditional scope expression”

**Add:** after the limitation “, said property name-property value pair determining a list of conditions...controlled by the second entity”, “, and said authorization data including validation information;”

**Add:** after the limitation “a processor configured to execute computer-executable instructions for”, “receiving a validation request from the second entity and”

**Replace:** the limitation ~~“; in response to a request from the second entity, the authorization data issued to the first entity to provide access to the resource,”~~ **by** “, in

response to the validation request from the second entity, the authorization data issued to the first entity to provide access to the resource, said validation request including the authorization data issued to the first entity."

**The following is an examiner's statement of reasons for allowance:**

The prior art of record fails to teach the combinations of limitations in independent claims 1, 11, and 28.

Dependent claims 4-5, 10, 12, 16-17, 19-23, 27, 30-31, and 36-41 incorporate the listed limitations by reference and contain limitations that further distinguish over the art of record. For these reasons, claims 4-5, 10, 12, 16-17, 19-23, 27, 30-31, and 36-41 are considered allowable over the art of record.
